CHARTERED ACCOUNTANTS

MEDIA RELEASE

(Wednesday, 7 March 2007: For immediate release)

Mt Gravatt firm appoints Accounting Associate

Fell Eales McGarry Chartered Accountants at Upper Mt Gravatt have announced the appointment of Nerida Renouf to the role of Associate.

A career accountant with more than 20 year's professional experience, Ms Renouf has been with Fell Eales McGarry for the past 13 years. Her professional qualifications include:

- Bachelor of Business (Southern Cross University)
- Graduate Diploma in Advanced Accounting (Queensland University of Technology); and
- Chartered Accountant

Her most recent role at Fell Eales McGarry has been as a Manager, a position she has held for the past seven years, with eight staff under her direct control.

Elevating Ms Renouf to her new role is the first Associate appointment for Fell Eales McGarry in its 27 year history. Senior Partner and Co-Founder of the firm, John Eales said the time was right to integrate an Associate level into the firm's management structure – especially with the growth of the business in recent years, and the firm expanding its range of accounting and related financial advisory services.

Mr Eales said the appointment not only reflects the rapid growth of the firm; it is also a demonstration of and reward for Ms Renouf's leadership capabilities and experience. "FEM has reached a point where we need to expand our senior management team," Mr Eales said. "We have appointed Nerida for her proven management ability, understanding of our clients' expectations and her passion for this firm's culture, heritage and vision. As an integral part of our management team, I know Nerida has the utmost support and respect of all FEM's stakeholders."

Mr Eales also said that Ms Renouf would play a greater role in the future direction of Fell Eales McGarry, focusing on the integration of its accounting services with other financial advisory services.

Speaking about the appointment herself, Ms Renouf said that she is looking forward to the challenge of the increased responsibility, particularly in the area of managing client servicing standards at a broader level. "Ours is a relationship business, so my aim is to ensure that every interaction is a positive experience for our clients," she said.
